

New Picket Schedule for Local 1746

Brothers, Sisters and Siblings,

A new picket schedule has been created. We appreciate your patience with the learning curve of scheduling. It has been 24 years since our last strike and we have significantly less people to picket at the four gates 24/7. We are not trying to inconvenience anyone, just ensure enough people are at each gate. If your assignment does not work for your life circumstances, please call the hall or stop by to see how we can make it work. We understand how stressful the situation is. Stay strong. Another text blast will be coming out within 24 hours to talk about the concerns we are hearing about. Always feel free to come to the hall to talk about your concerns.
